

UPCOMING ESH CONFERENCES

ESH plenary conference programmes are designed to place emphasis on leading-edge basic and clinical research and future perspectives. Ample time is deliberately provided for in-depth scientific discussion and interaction. Registered participants further benefit from a variety of opportunities for informal scientific interaction with the world's leading experts in their field, including during small Meet the Expert sessions and Mentored Posters Walks. ESH conference delegates are invited to submit abstracts. Selected abstracts are presented as brief oral communications or posters.
